

# Table of Contents: Databases and Mail Merge

<b>The Exercises and Lab Files</b> .....	<b>vii</b>
<b>StarOffice and OpenOffice.org Mail Merge</b> .....	<b>1</b>
<b>Introduction to Databases and Mail Merges</b> .....	<b>3</b>
<b>Creating Simple Databases From Text Files and Spreadsheets</b> .....	<b>4</b>
<i>Creating a Text File to Use As a Database</i> .....	4
<i>Creating a Spreadsheet to Use As a Database</i> .....	4
<i>Creating a Database File That Connects to a Text File, Spreadsheet, or Address Book</i> .....	5
<i>Connecting to an Existing Database</i> .....	8
<b>Creating Mail Merge Documents.</b> .....	<b>11</b>
<i>Creating a Database for These Exercises</i> .....	11
<i>Creating Mail Merge Envelopes</i> .....	12
<i>Creating Your Own Envelope—Advanced Exercise</i> .....	16
<i>Creating Mail Merge Address Labels</i> .....	20
<i>Suppressing the Address2 Field or Other Fields</i> .....	25
<i>Creating a Mail Merge Letter From Scratch</i> .....	30
<b>Creating Mail Merge Documents Using Wizards.</b> .....	<b>31</b>
<i>Using the Fields Window to Insert Mail Merge Fields</i> .....	31
<i>Creating a Mail Merge Document Using the Complex Mail Merge Wizard</i> .....	33
<b>Printing Mail Merge Documents</b> .....	<b>47</b>
<i>Previewing the Data That Will Print in Mail Merge Documents</i> .....	47
<i>Printing a Mail Merge Document</i> .....	49
<i>Printing Specific Non-Consecutive Records to Files</i> .....	49
<b>StarOffice and OpenOffice.org Databases</b> .....	<b>51</b>
<b>Creating or Registering a New Database in the Base Program</b> .....	<b>53</b>
<i>Registering an OpenOffice.org Database</i> .....	53
<i>Creating a Base Database</i> .....	54
<i>Creating a Table in a Base Database Using the Wizard</i> .....	56
<i>Entering Data in a Base Table</i> .....	59
<i>Creating a Table in Design View and Defining Default Field Formats</i> .....	60
<b>Modifying Tables</b> .....	<b>68</b>
<i>Creating a Relation Between Tables</i> .....	68
<i>Specifying a Primary Key</i> .....	70
<i>Sorting Data in a Table</i> .....	72
<b>Importing and Exporting Data.</b> .....	<b>74</b>
<i>Importing Data From Another Source Into a Base Table</i> .....	74
<i>Importing External Data From a Spreadsheet Into a Base Table</i> .....	76
<i>Appending External Data to an Existing Table</i> .....	81

<i>Exporting Data From a Table, View, or Query</i> .....	84
<b>Views, Queries, and Relations in OpenOffice.org Base</b> .....	<b>89</b>
<i>Overview of Queries Versus Views</i> .....	90
<i>Creating a Query Using the Wizard</i> .....	90
<i>Creating a Query Using SQL</i> .....	95
<i>Creating a View in Design View</i> .....	96
<i>Quick Reference to Criterion Syntax</i> .....	100
<i>Creating a View or Query Using Functions</i> .....	102
<i>Tip: Modifying a View</i> .....	105
<i>Creating a Query Using Calculated Fields</i> .....	106
<i>Creating a Query Using Calculated Fields and Functions</i> .....	108
<i>Creating a Query Using Joins and Functions</i> .....	110
<i>Modifying a Query</i> .....	115
<b>StarOffice and OpenOffice.org Forms and Reports</b> .....	<b>117</b>
<b>Creating and Using Forms</b> .....	<b>119</b>
<i>Creating a Simple Form Using the Wizard</i> .....	119
<i>Modifying a Field Type in a Data Entry Form</i> .....	122
<i>Creating a Data Entry Form With Joined Tables</i> .....	126
<i>Using a Data Entry Form</i> .....	129
<i>Finding a Record Using a Form</i> .....	131
<b>Creating and Printing Reports Using the Report Wizard</b> .....	<b>134</b>
<i>Creating a Report Using the Report Wizard</i> .....	134
<i>Saving a Copy of the Report</i> .....	137
<i>Modifying a Report</i> .....	138
<i>Creating a Report With Groupings (One-to-Many Relationships)</i> .....	141
<i>Adding a Calculated Field to a Report</i> .....	144
<b>Creating Reports From Scratch</b> .....	<b>149</b>
<i>Registering a Database for These Exercises</i> .....	149
<i>Creating Field-Based Reports From Scratch by Dragging Fields</i> .....	149
<i>Creating Plain Text Reports From Scratch</i> .....	152
<i>Using the Next Record Field to Print Multiple Records on the Same Page</i> .....	154
